Subject: Brooke utility in Strawberry Re K2 site

Miss Mayes,

I am writing you to tell you of a problem that I have had with Brooke Utility for which I have filed out a complaint on the ACC's complaint form and will mail it in on Monday. The issues I am referring to stem from Brooke utility having to use an easement to access the K2 site.

That easement belongs to me, as of about two years ago, it was previously owned by Robert and Melissa Johnson.

There are clear restrictions outlined in this easement agreement.

In a nut shell the utility is allowed ingress and egress across the easement.

Any other activities on the easement are required to have prior written consent from the property owner.

For some time I have had trouble keeping the utility to this agreement.

Today the utility was preparing the K2 site, during this operation the workers employed by Brooke utility used earth moving equipment to alter my land, they then parked on it and vandalized my property by placing paint and wooden stakes across and through my property. Today I spoke to Myndi Brogden about this situation and from our conversation I feel that the utility will continue to use my land and violate the easement agreement, against my wishes.

I would appreciate your help.

Sincerely,

Ned Greenleaf
